Mini-Session

Mini sessions are only available to families who have already purchased a regular session within one calendar year. For example, but not limited to:

- families who purchased a newborn session and want to also capture 6 month and/or one year sessions.
- families that had a spring session but want another session in the fall for Christmas cards or gifts.

\$200 includes

- 30 minute session
- 10-15 images
- includes all digital images

Session Information:

I currently offer outdoor photography only for children and families. I love working with children and will capture your child(ren)'s personalities with each image. Your session will result in 25-30 of the best images. Images can be viewed through an online, password protected gallery for selection of prints purchased through a collection. Collections will be given a print release for digital images purchased which allows you to print your images at your convenience. Sarah Marney Photography holds the copyrights to those images. Digital images purchased through a collection are of the highest resolution and are excellent print quality. A signed contract is due at booking along with session fee to hold your date. Thank you for choosing Sarah Marney Photography!
